# ECOPRANA

**EP** Patent Nanoland Technology of Ultrasonic Energy

PCT Patent No,WO 2014/171406 A2

JP Patent No,5719093

CH patent-pending No,STIJ15078618/11

SP patent-pending No,11201508590R

USA patent-pending No,14/785,288

**Applied Technology Patent**

**Change from Solid to Liquid form to Gasification Technology**

1,600 degrees gasification technology to surpass(**Reproduction fuel reproduction combustion**)

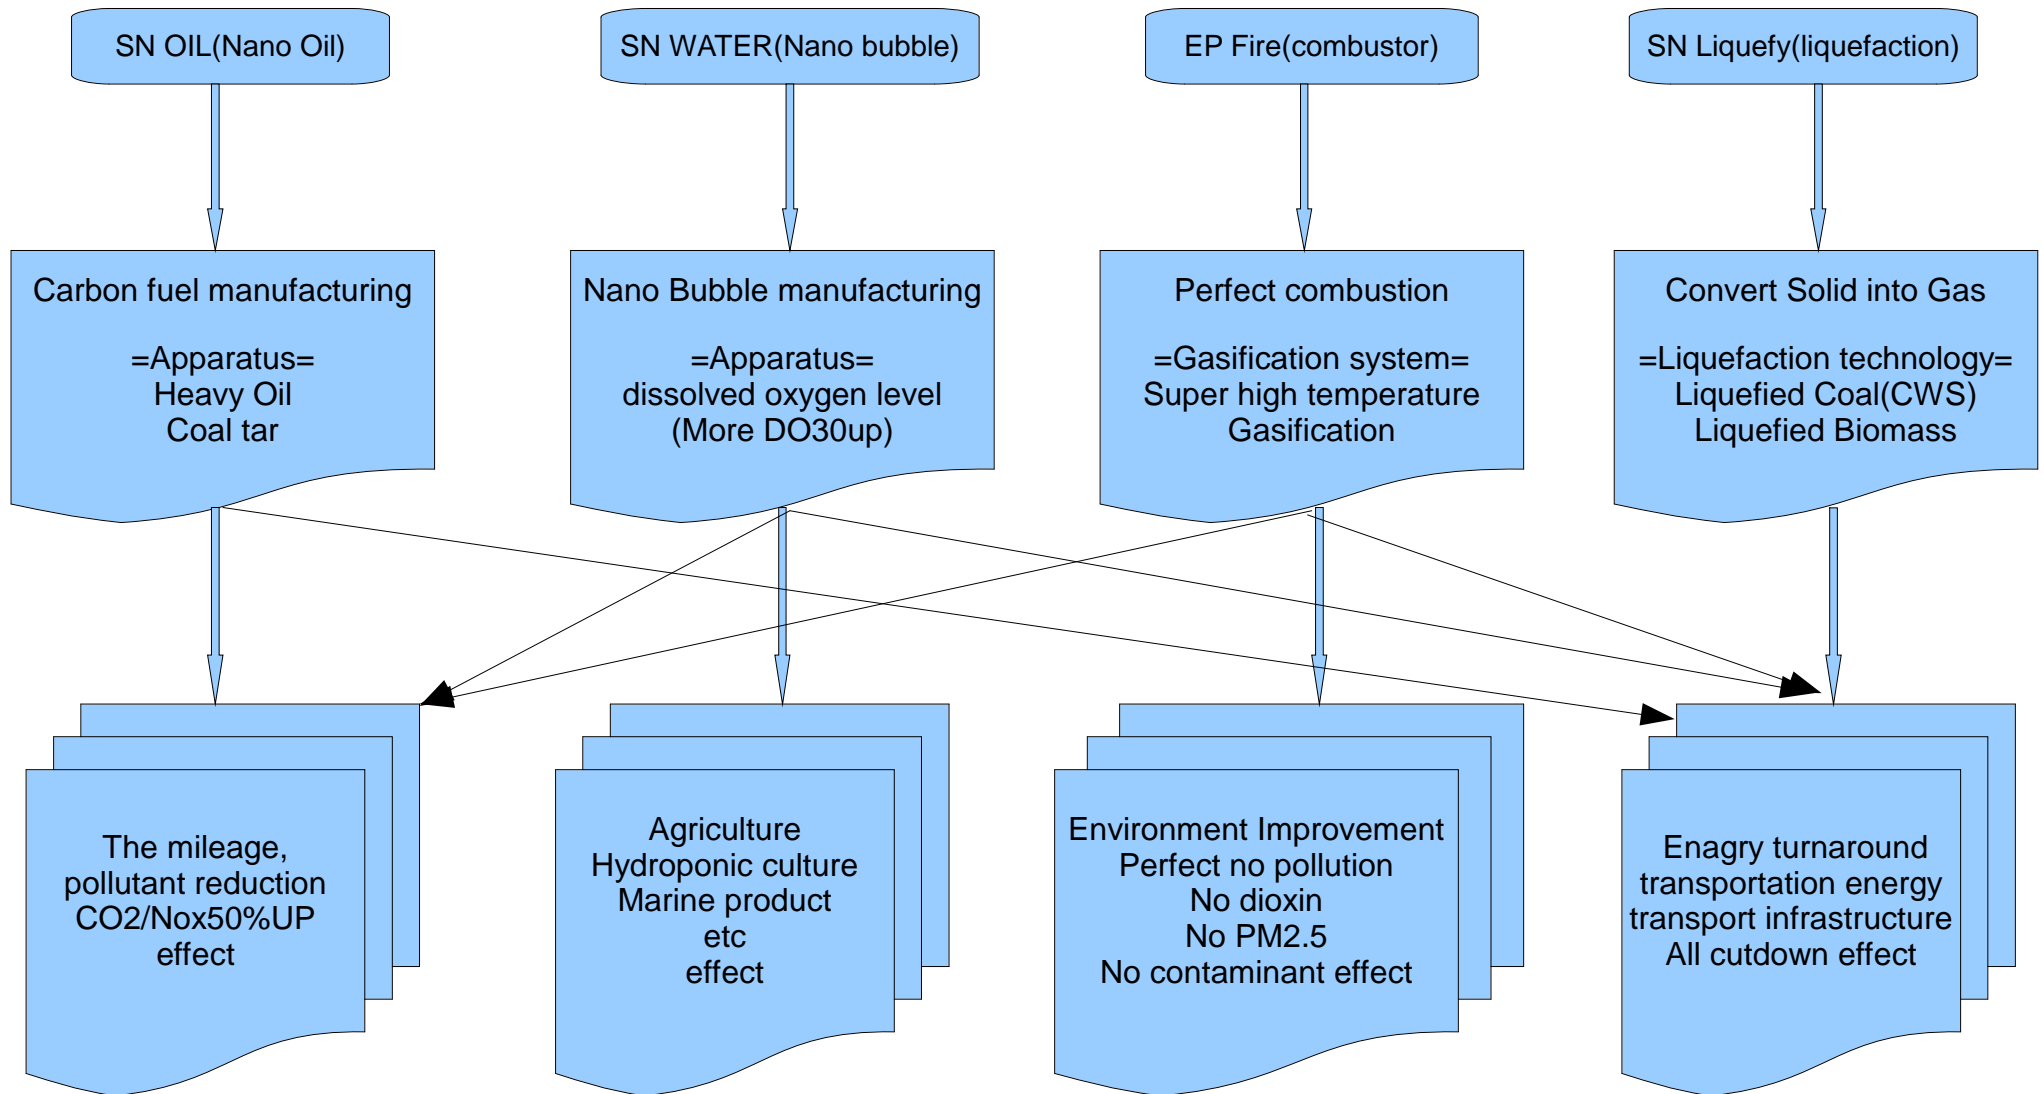

JP Patent No, 2016-073948

Gasification liquid fuel production Ttechnology(**GLF**)

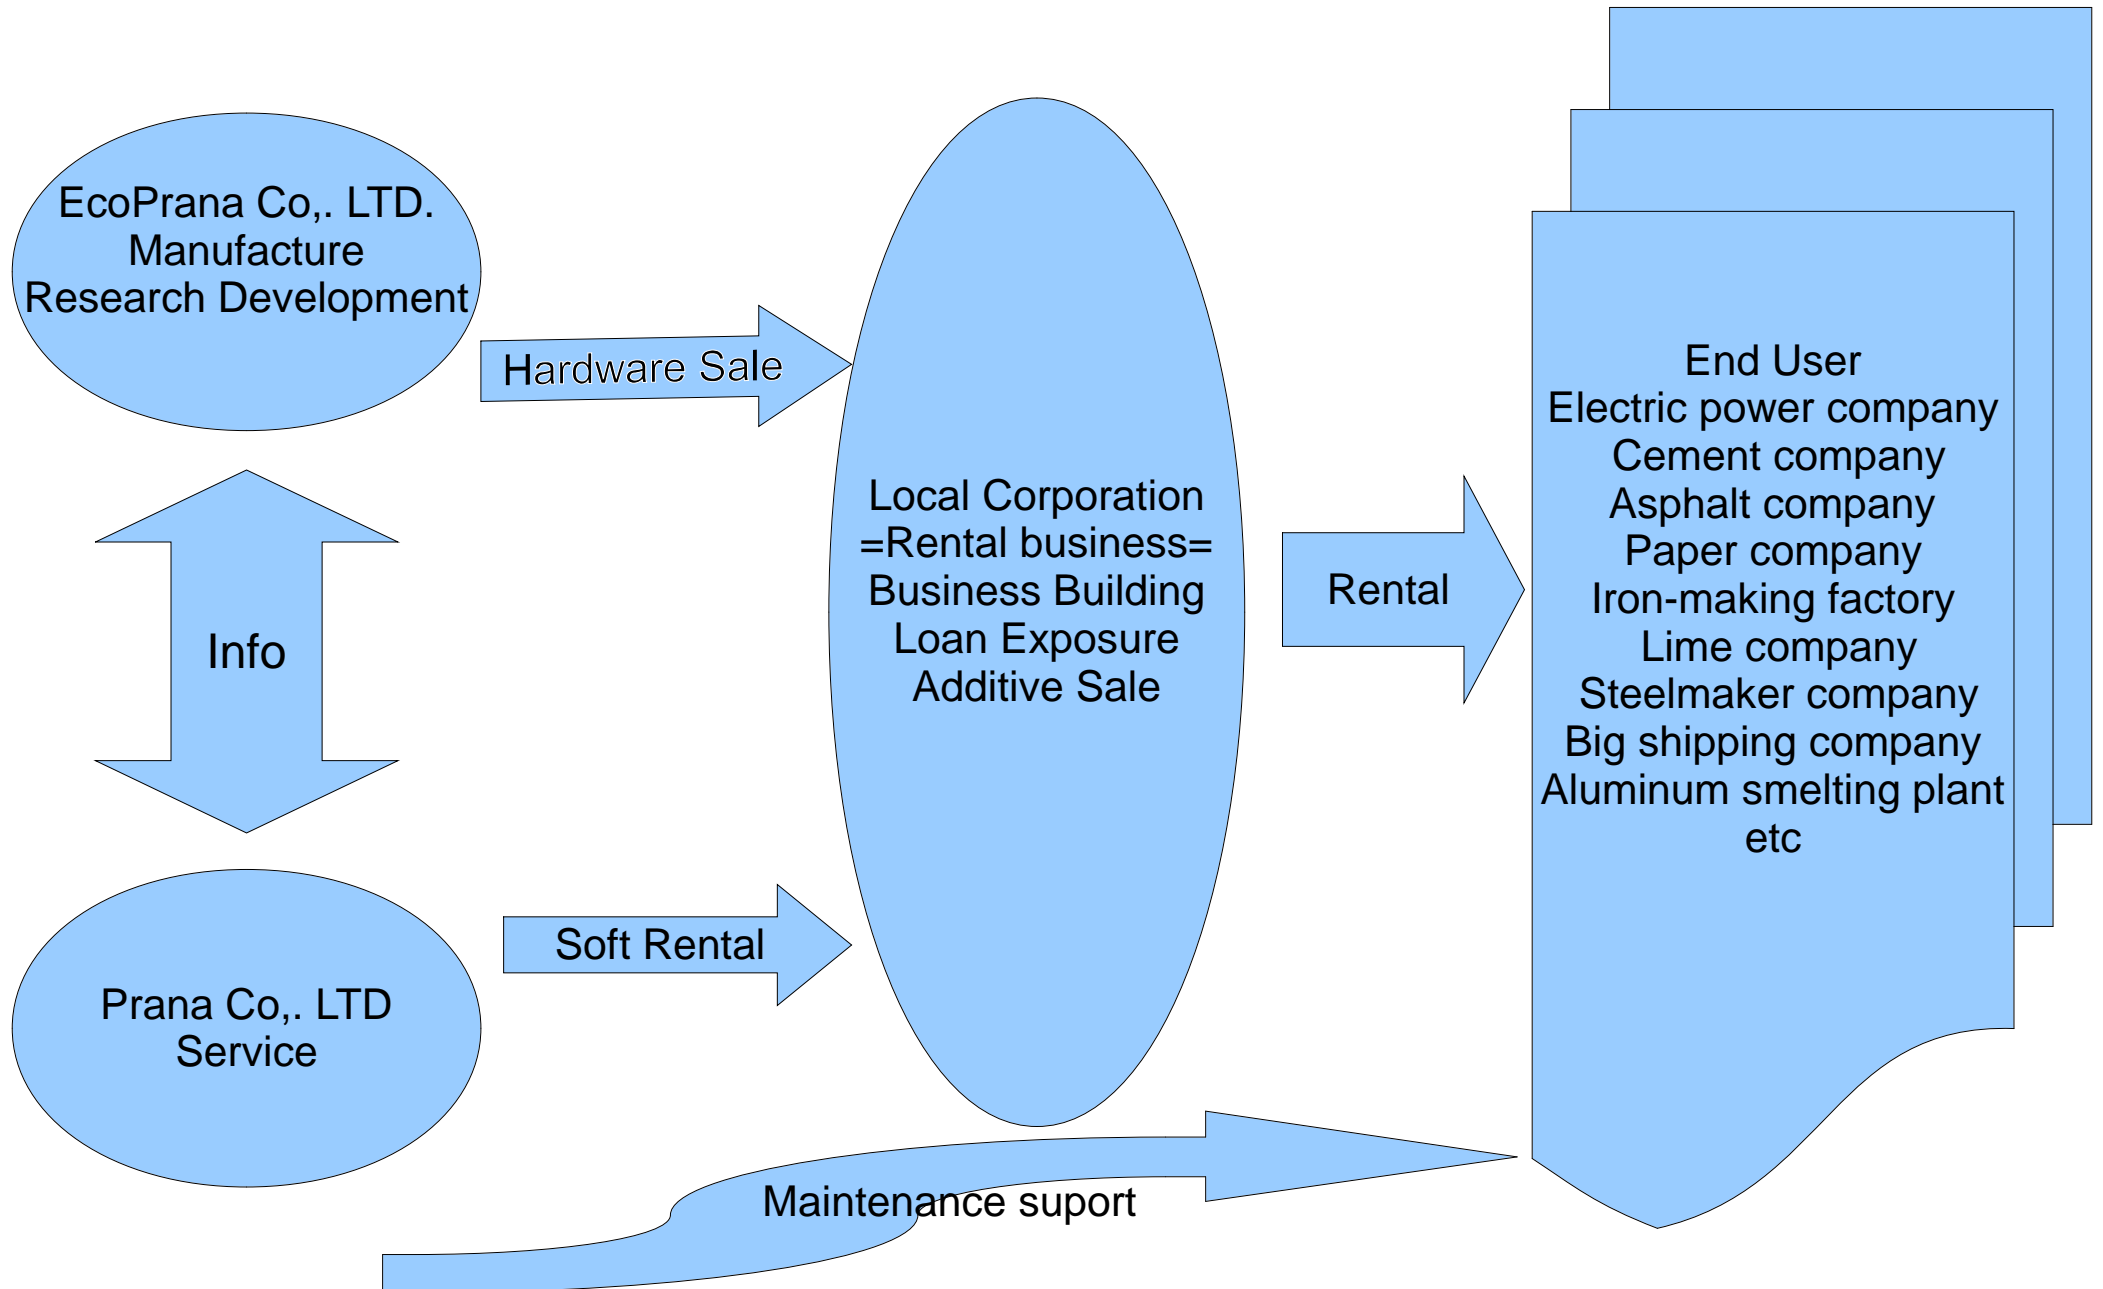

JP Patent No,2015-239238

# EP's REVOLUTION of ENVIRONMENT expanding world !

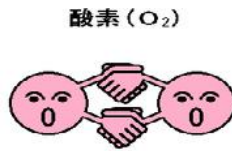

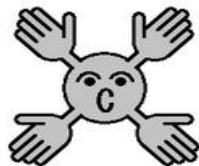

EP's about synthetic oil and possibility of SN OIL ?!

- **EP's SN OIL ?** It is an ester bond technology of oil molecules and the water molecule.
- **EP SN OIL's method for manufacturing ?** It is a new technology to couple water in in-line to heavy oil.
- **EP SN OIL capacity ?** Because it is hydrodynamics processing, mass production is realized from powdered coal to bio.
- **EP EP Big 3 System ?** As for the technique more than 1,600 degrees Celsius, circulation reproduction is realized.
