

# 3<sup>rd</sup> Energy World of Electromagnetic Energy

= Energy Creation by Elementary Particle Impact Waves =

**3<sup>rd</sup> Energy**  
The World of Particle Energy  
= Energy by Fluid Particle Shock Waves =

- NO!** Dissipated Energy  
Cannot save
- NO!** Usage Method  
Heat conduction only
- NO!** Large Equipment  
Huge plant Boiler etc...
- NO!** Low Energy Efficiency  
Waste of heat!
- NO!** Environment Issues  
CO2, NOX etc...

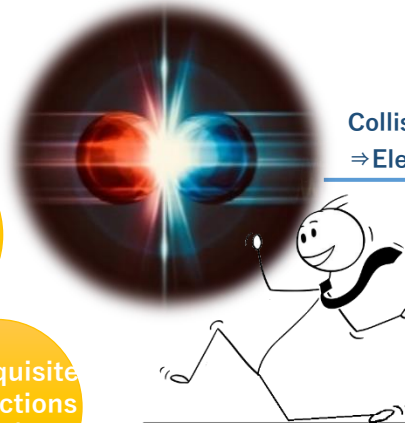

**1<sup>st</sup> Energy**  
< Petroleum Heat Energy >

- NO!** Large Equipment  
Large installation area  
Space used
- NO!** Low Energy Efficiency  
Limit of heat generation
- NO!** Location Restrictions  
Mountains, Rivers, Sea, etc...
- NO!** Prerequisite Restrictions  
Terrain, Wind, Water etc...

**CREAR!**  
Environmental Measures  
Renewable Energy

**2<sup>nd</sup> Energy**  
< Natural Load Kinetic Energy >

Collision of particles  
⇒ Elementary particle energy

- CREAR!**  
Small Size · Free Movement  
No restrictions on Installation location! !
- CREAR!**  
Zero Energy Loss  
Creation only what Necessary !
- CREAR!**  
Not Dissipated Energy  
Boundlessness Sustainable !
- CREAR!**  
Environmental Measures  
Zero environmental impact !

**3<sup>rd</sup> Energy**
